What is the AXENT.ONEC+ ?

The AXENT.ONEC+ intelligent toilet redefines intuitive design and adaptable technology. This award-winning intelligent toilet is equipped with the latest smart home technologies including hands-free seat lid opening/closing, customizable bidet functionality, seat warming, a warm air dryer, a deodorizer, an intuitive night light and automated flushing.

What Are Intelligent / Smart Toilets?

Intelligent toilets (aka: smart toilets) are toilets with integrated bidet systems and programmable comfort features including automated seat warming, water warming, cleaning and hands-free open, closing, cleansing and sanitizing features. AXENT's intelligent toilets are customizable and adaptable to each user's preference to ensure a luxurious and comfortable bathroom experience.

Benefits of the AXENT.ONEC+ Intelligent Toilet

- **What health benefits does the AXENT.ONEC+ /do smart/intelligent bidet-integrated toilets offer?**
 - **Sanitary, hands-free flushing**
 - With the wave of your hand or the touch of a button on a remote or mobile app, you can activate flushing without touching the toilet.
 - Having a sensor instead of a handle is that germs won't get transferred from hands to the toilet and then to the next person who flushes.

- **What functional benefits does the AXENT.ONEC+ /do smart/intelligent bidet-integrated toilets offer?**
 - **Hands-Free Automated Flushing** is an exceptional solution for individuals with physical limitations. The AXENT.ONEC+ offers a comfortable and easy to use sanitary bathroom solution.
 - **Integrated Tankless Design** offers a minimalistic and low-profile solution for a bathroom necessity. Preventing design obstacles and unnecessary clutter, the AXENT.ONEC+'s modern construction is packed full of technological features without wasted space or ceramic.
 - All of AXENT's are designed, engineered and manufactured by AXENT meaning there's no middle man. Engineering knowledge and excellence (from being the manufacturer of the AXENT.ONEC+), and cost-savings are passed along to all of AXENT's customers.

- **What environmental benefits does the AXENT.ONEC+ intelligent toilet offer?**
 - **Water Conservation:** Smart toilets sense how much water is needed and flush using just the right amount. The AXENT.ONEC+ is a certified high-efficient toilet with a capacity of 1.28 gallons per flush (GPF).
 - **Less Paper Waste:** Integrated bidet and intelligent toilets reduce the need for excessive amounts of toilet paper and thus reduce each user's toilet paper consumption.

- **Is the AXENT.ONEC+ part of a design suite or ensemble?**
 - Yes, an ensemble. Check out the AXENT.ONEC series and additional complimentary bathroom pieces at www.axentbath.com

- **What materials is the AXENT.ONEC+ made of?**
 - Vitreous China bowl, poly-propylene seat and cover lid, and an ultra-durable stainless steel bidet wand.

Functions & Features

- **How effective is the AXENT.ONEC+'s flushing technology?**
 - AXENT's proprietary Vacuum V Flush two-fold hydrodynamic siphon flushing system offers one of the industry's most effectively powerful flushes with a Maximun Performance (MaP) rating of 800g (Highly Recommended).

- **Is the remote connected to the toilet?**
 - No. The AXENT.ONEC+ can be managed through a completely wireless remote, a mobile app OR the attached ONE.DIAL. All of these management options are wireless and easy to use.

- **What type of battery is in the remote?**
 - AAA batteries

- **Is the remote be color matched to the toilet?**
 - Yes

- **Is there a heater in the toilet for the bidet or do you need a hot water supply?**
 - The AXENT.ONEC+ is the only intelligent toilet in the world equipped with a premium instant water heating technology designed to fit into the toilet's compact electronic casing. This removes the need for an additional hot water supply tank to offer users immediate water warming and a continuous flow.

- **How much time should it take to 'dry' using the bidet dryer?**
 - Just a few short minutes.

- **How is the bidet wand cleaned by the toilet?**
 - The bidet wand is rinsed with water before and after every use.

- **Why does the AXENT.ONEC+ incorporate a stainless steel bidet wand vs. a plastic one?**
 - Unlike plastic which can easily break, stainless steel is ultra-durable and rust resistant which makes it the ideal material for the bidet wand.

- **If there is a power outage is there a manual way to flush the toilet?**
 - Yes, there is a manual flush button just behind the ONE.DIAL on the left side of each AXENT.ONEC+ toilet.

- **Is there a water pressure regulator in the toilet?**
 - 40 psi to 80 psi (static) is optimal
 - *Ex from Kohler: There is a flow regulator in the system to control the water usage of the toilet. Numi is designed to operate at inlet pressures between 30-80 psi (static).*

Installation and Customer Service

- **Can an individual install an AXENT.ONEC+ into their home without a plumber?**
 - While installing the AXENT.ONEC+ is pretty simple and intuitive for a plumbing professional, we don't recommend customer installation. Due to the AXENT.ONEC+'s unique design and compact features, in-wall plumbing adjustments and electrical outlet installations may be required.

- **Who can customers call for more information about purchasing or servicing an AXENT.ONEC+?**
 - Customers may contact AXENT's North American sales and service department at 1-800-769-4857 or support@axentproducts.com.

- **Where can people experience the AXENT.ONEC+ products first-hand?**

- To experience the AXENT.ONEC+ first-hand, visit any of our North American showroom partners found here: <http://axentbath.us/services/showrooms/>
- **What components come with the AXENT.ONEC+ toilet?**
 - The AXENT.ONEC+ intelligent toilet comes fully assembled. Below is a list of the components that are included. Please refer to the installation instructions for additional information.
 - Remote control accessories: AXENT.ONEC+ remote, docking station, and wall-mounting anchors/screws for docking station
 - Product Literature: User Manual and Installation Guide
 - Water Supply Components: Inlet water hose and filter adapter
 - Installation Kit: Rough-in flange and decorative cap
- **Do customers need to buy additional materials to install their AXENT.ONEC+ toilets?**
 - Wax ring with flange bolts and washers, ½" NPT supply valve and caulking
